

MARTIN POLLARD'S
Casa de Cadillac
14401 VENTURA BOULEVARD · SHERMAN OAKS, CALIFORNIA

Gentlemen:

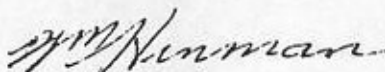

Cleaning the floor areas in our Service Department is no problem as they have been treated with Ashford Formula. Any oil or grease dropped on the floor is merely wiped off with a cloth as there is no penetration below the surface of the concrete.

The Ashford Formula was applied when our building was finished in March 1949 and we still use only a mild soap on this to keep it clean.

This Service Department has the easiest-to-maintain floor I have ever seen because of the Ashford Formula.

Very truly yours,

Casa de Cadillac

Wm. Hinman
General Service Manager
